

CAM INTERNATIONAL

May 2003

The baby's coming! The baby's coming! This is the family mantra around our house these days. Alyssa and Sabrina can't wait to meet their new baby sister! Jennifer obviously is ready to let someone else take a turn carrying the baby. And Brian is about to receive a reality check that he will be even more outnumbered! The baby will be arriving somewhere around the 21st of May. Look for baby pictures on our web page <http://smartgroups.com/groups/mastersministry>.

FAMILY

We have been enjoying seeing the girls grow and mature. Sabrina celebrated her 2nd birthday on April 19 and is talking in complete sentences with a rapidly growing vocabulary. Alyssa's 5th birthday is approaching soon (the baby's due date), and she can't wait to start Kindergarten in the fall and to promote from Cubbies to Sparks in Awana! Jennifer is finishing up with her piano students in the next few weeks (before the "baby break") and is preparing several of them for an upcoming recital.

PRAISE!

On Sunday night, April 13th, we finished taking our first Bible Study group through "The Stranger on the Road to Emmaus". It was a great evening as we ate outside and enjoyed a time of conversation about what God has been and is doing in our lives. Thank you for praying for Matt and Bobbi, David, and Chris. Our Monday night Bible study has been very exciting as we introduce new biblical concepts and stories to Randy and his 2 daughters (Cassie and Christy).

CAM CENTER

Over the last few months, Brian has been very busy with several projects for CAM and is excited to see several of his annual goals checked off the list. He has been able to select and install an Internet Firewall for CAM Center, help our seminary in Guatemala (SETECA) get a hard drive replaced that failed while it was under warranty, replace our President's (Dan Wicher) aging laptop with a new lighter model, and investigate how to use our current donor/accounting system to track information about our missionaries.

TRIP TO FLORIDA

In March, Brian took a 4-day trip to West Palm Beach Florida to help South America Mission (SAM) setup a network domain. SAM has loaned CAM one of their missionaries for the past 2 years and to show our appreciation in a small way, CAM loaned Brian to them for a few days. Brian enjoyed helping them out, but was so busy, he caught his first glimpse of the beach on the airplane trip home.

Last December he was also able to teach a computer class at Missionary Tech in Longview, Texas. Helping both Missionary Tech and South America Mission has been encouraging because we've been able to see how God has allowed us to fulfill and live out one of our ministry desires - "To help the home offices of mission boards use technology to further the Gospel."

OUR SUPPORT

In February, Brian met with one of CAM's Board Members who encouraged us to work at gaining support from the churches and individuals in the Dallas area. After speaking with this gentleman, Brian began utilizing Tuesday afternoons to contact potential donors and individuals in the Dallas area. We have seen several new supporters join our support team and are excited to see our support level reach about 60%! Thank you for praying! We have also scheduled five Sunday School class presentations in which we can share our ministry over the next couple of months. We continue to contact people here in the Dallas area and to seek opportunities to share our ministry with Sunday School classes or small groups.

Thanks for praying for us as we seek to touch the world - one life at a time - through information technology!

The Masters

Brian, Jennifer, Alyssa, Sabrina and Baby Masters

To join our e-mail prayer letter list, please send an e-mail to mastersministry-subscribe@smartgroups.com

To view our previous prayer letters visit <http://smartgroups.com/groups/mastersministry>

We are conducting a "research study" regarding CAM's use of bulk mail. To participate, please e-mail us at bmasters@email.caminternational.org with the date you received our prayer letter (i.e. Monday, February 3rd) Thanks for your help!
