

FAMILY

We are enjoying being back home after a summer of travel. Brian spent eleven days in Mexico and Honduras, and three days after he returned home, our entire family left for a two week trip to Kansas City and on up into Iowa. We had a great time visiting supporters, friends and family, but it's always great to be home, too! All three girls just finished up swimming lessons, and made great progress in learning to swim. It's hard to believe, but we are already making preparations for Alyssa going back to school to begin Second Grade. Sabrina will be doing preschool at home with Jennifer (with Olivia looking on). Jennifer has enjoyed a lighter summer load of piano lessons, but will resume her normal teaching schedule when school begins. Both Brian and Jennifer stay busy with responsibilities at church with the music ministry and with Sunday School leadership.

GEEK SPEAK (Brian's column)

Our pastor often says, "God is Good, all the time; All the time, God is good." I've been jumping up and down with joy these past few months for many reasons.. God has been answering your prayers!

On June 15th, we hired our bilingual web developer! Thank you for praying. Joshua Scott is a phenomenal web developer who has a passion for helping ministries develop effective web sites. He is currently fixing some bugs on our 4 sites and then he will begin working on some new sites for CAM. Pray for Joshua and his wife Betty as they are in Antigua, Guatemala adopting a little girl. This has been a long process, but their family is handling it well.

June 10 – 20th was an exciting 11 days as I, Phil O'Day (CAM's director of recruitment) and Joshua Holden from Bluefishtv.com went to Mexico and Honduras to film two of our missionaries' stories. I've posted some pictures on our website www.seethemasters.com.

I was thrilled to be able to see and talk with 19 of our CAM missionaries throughout Mexico and Honduras. This was a great opportunity to learn about their ministries, learn more about the Mexican and Honduran cultures, and help our missionaries with their computer questions and needs. It was especially gratifying to talk with Tim and Donna Wright as they shared how thankful they were that I had sent out information to them about www.vonage.com. They are able to have a phone in Siguatepeque, Honduras that has dial tone in Little Rock, Arkansas! This has been incredibly helpful as they stay in touch with their 4 college age kids.

Please continue to pray as we find new ways to serve our missionaries through technology.

PRAYER:

1. Deeper involvement in our Young Families Sunday school class.
2. (B) and (C) who need Christ.
3. Alyssa as she begins Second Grade on August 15.

PRAISE:

1. DVD trips to Mexico and Honduras were God directed.
2. The hiring of Joshua Scott as our web developer.
3. Our Representation / Vacation trip to Kansas and Iowa was refreshing and a great time to connect with friends and family.
