

## Family

We're off and running on our fall schedules! The girls are busy with schoolwork, friends and church activities. Both Alyssa and Sabrina are leading Bible studies for other girls at church, and all three girls are involved in leading youth worship and working as leaders in our church's AWANA program. We're eagerly anticipating spending Thanksgiving with Brian's extended family and seeing Jennifer's siblings and their families over the Christmas holiday.

Brian will attend quite a few conferences this fall as he adds "marketing" to his already full list of responsibilities. By serving cups of free HOPE Coffee to church leaders, he is able to share with them the impact that their church can make by switching their church's coffee over to HOPE coffee. Alyssa was even able to travel with Brian and help with a conference in California in mid October.

The HOPE Coffee team is excited to announce the arrival of the HOPE Coffee single serve cup for use in Keurig® machines! Available in the popular medium roast level, it can be ordered at [HOPECoffee.com](http://HOPECoffee.com) for use in your home or office.

## Beyond the Numbers - The Personal Impact of the Gospel

A simple cup of coffee takes nearly a year of cultivation as the beans are harvested, roasted, and brewed to become an enjoyable part of our daily routine. In much the same way, it takes time to cultivate relationships that lead to lives being transformed by the Holy Spirit. The Honduran church members, in addition to helping their communities with physical needs, pursue relationships with their neighbors with the purpose of sharing the gospel of Jesus Christ.

Maria Ester and daughter

Maria Ester, a single mother from Choluteca City in Southern Honduras, started a *tortilleria* (tortilla shop) to provide for her family. When members of the Monte Santo Church met Maria and saw the poor condition of the roof of the home in which she cooks the tortillas, they shared this concern with Pastor Victor. HOPE Coffee partnered with this church to provide a new roof for her family. As church members built the roof, they shared the gospel with Maria and her family. Maria was interested in learning more and so church members began a study in her home called "Who is Jesus Christ?" After several months of study, Maria recently accepted Christ!

Jullian and Luis

Julian is a Garifuna man who lives in Tela in Northern Honduras. He was befriended by a local pastor, Luis, who learned that Julian and his neighbors had little access to water. HOPE Coffee partnered with Luis' church, Cristo Viene, to build Julian and his neighbors a water storage unit. Through the construction process, Julian accepted Christ in August
